## SALES ROI

Increase customer interaction time at live meetings and events by reducing time spent on non-value add planning, logistics and execution activities. Post meeting closeout is simple with meeting details being prepared by an experienced meeting professional.

## COMPLIANCE

Proactive business rule & compliance monitoring for a configured set of processes and protocols covering all facets from pre-loading approved slides and laptop security to approved participant admittance, spend cap validation and venue closeout.

## ATTENDEE ENGAGEMENT

Enhance the live meeting experience by ensuring all meeting elements from audio-visual requirements to meeting presentation and registration are conducted in an effective manner ensuring program messages are delivered in a professional environment.
